TECHNICAL SKILLS

Programming

JavaScript, TypeScript, Python
Kotlin, Dart, SQL

Frontend

React.js, Next.js, Tailwind CSS
Framer Motion

Mobile

React Native, Android (Kotlin)

Backend

Node.js, Express.js, FastAPI
REST APIs, Python

Databases

MongoDB, MySQL, Firebase

AI / ML

TensorFlow, NLP, OCR
Prompt Eng., AI Integration

Tools & Platforms

Git, GitHub, Figma, Postman
Vercel, Android Studio, VS Code

SOFT SKILLS

Problem Solving • Communication
Team Collaboration • Leadership
Critical Thinking • Adaptability
Time Management • Client Comms

LANGUAGES

Urdu — Native
English — Professional

CERTIFICATIONS

Prompt Eng. for Developers
Google Crash Course on Python
Meta Front-End Developer Cert.
Blockchain Awareness — 128 Tech
Six Sigma Yellow Belt (Coursera)

PROFESSIONAL SUMMARY

Final-year Software Engineering student with hands-on experience in full-stack development, mobile applications, and AI-powered solutions. Skilled in MERN stack, React Native, Kotlin, Python, and FastAPI. Proven ability to build scalable products and deliver production-ready software for startups, clients, and software companies.

EDUCATION

BS Software Engineering

Air University, Islamabad • CGPA: 3.3/4.0 • Expected Graduation: 2026

PROFESSIONAL EXPERIENCE

Software Developer | SoftxSolutions

Jul 2025 – Present • Project-Based

- Built full-stack web applications using MERN stack.
- Integrated AI features via Python and FastAPI; deployed scalable solutions.
- Optimized performance and user experience across production environments.

Mobile App Development Intern | Evosoft

Jun – Sep 2024 • Internship

- Developed Android features using Kotlin; improved overall app performance.
- Collaborated in an agile team to fix bugs and deliver sprint deliverables.

UI/UX Design Intern | Cogno Rise

Jun – Aug 2023 • Internship

- Designed wireframes and interactive Figma prototypes with user-focused interfaces.

FREELANCE CLIENT PROJECTS

Heal — Telemedicine App React Native • Firebase • ZEGOCLOUD

- Built doctor-patient video consultation platform with real-time call support.
- Integrated ZEGOCLOUD for live streaming; added health tracking features.

Domestic Care Services — Service Marketplace React Native • Google Maps • Firebase

- Connected customers with service providers with real-time location tracking.
- Integrated Google Maps API and Firebase for live provider display.

FEATURED PROJECTS

DocXtract (FYP) — AI-Powered Document Analyzer React • Node.js • FastAPI • Gemini API • OCR • MongoDB

- Developed platform for PDF uploads with AI-powered Q&A chatbot and NLP.
- Generated summaries, quizzes, and concept graphs from document content.

IELTS Counsel Python • React • Tailwind CSS Promography Next.js • Python • Tailwind CSS

- AI-powered IELTS prep platform with study plans and instant feedback system.
- Prompt discovery and sharing platform built with Next.js and Python backend.

Code Smell Detection React • Python • REST APIs Corefinity Website Next.js • Framer Motion

- ML-powered tool for detecting code quality issues via REST APIs.
- Delivered conversion-focused marketing site with Framer Motion animations.

Blood Pulse Connect Figma | UI/UX | Prototyping

- Designed a complete blood donation app prototype with end-to-end user flows.
- Created high-fidelity interactive screens focused on donor-recipient experience.
